

Front End Collimation Simulation Status

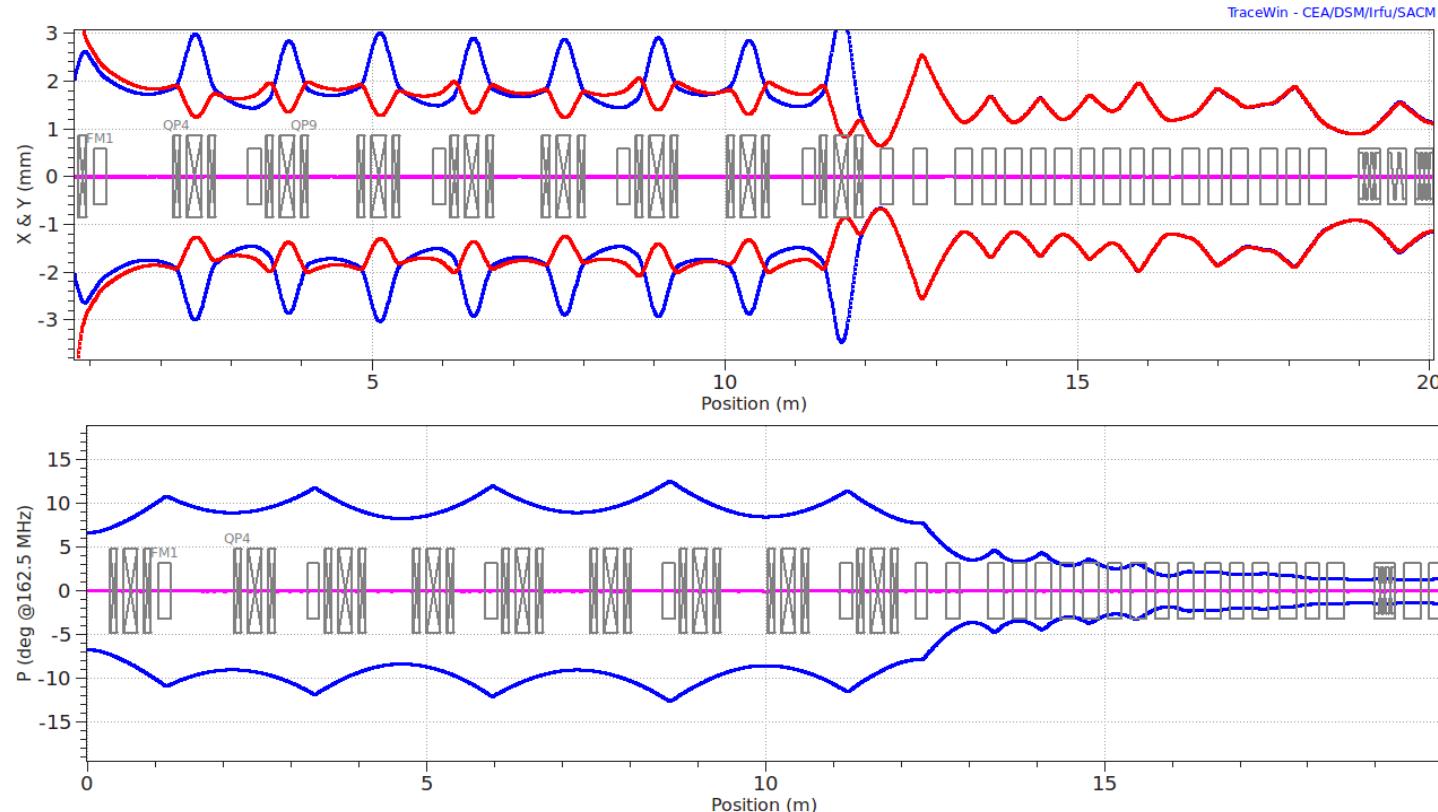

Francois Ostiguy

APC/Fermilab
ostiguy@fnal.gov

Custom Distribution

(20k particles - 1k particles in
0.5 MeV low energy tail)

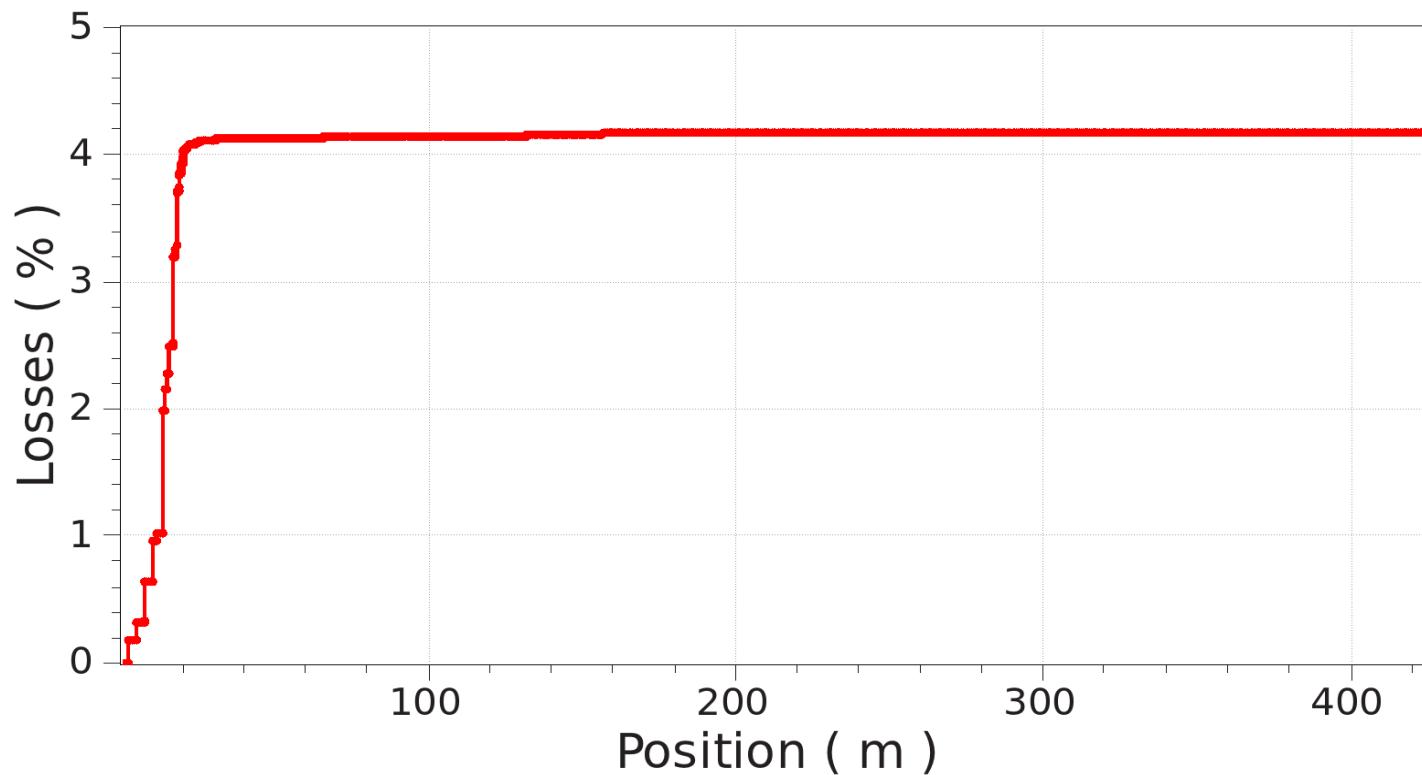

Collimators $r = 10$ mm aperture in MEBT, $r = 7$ mm in HWR section

Particle Losses

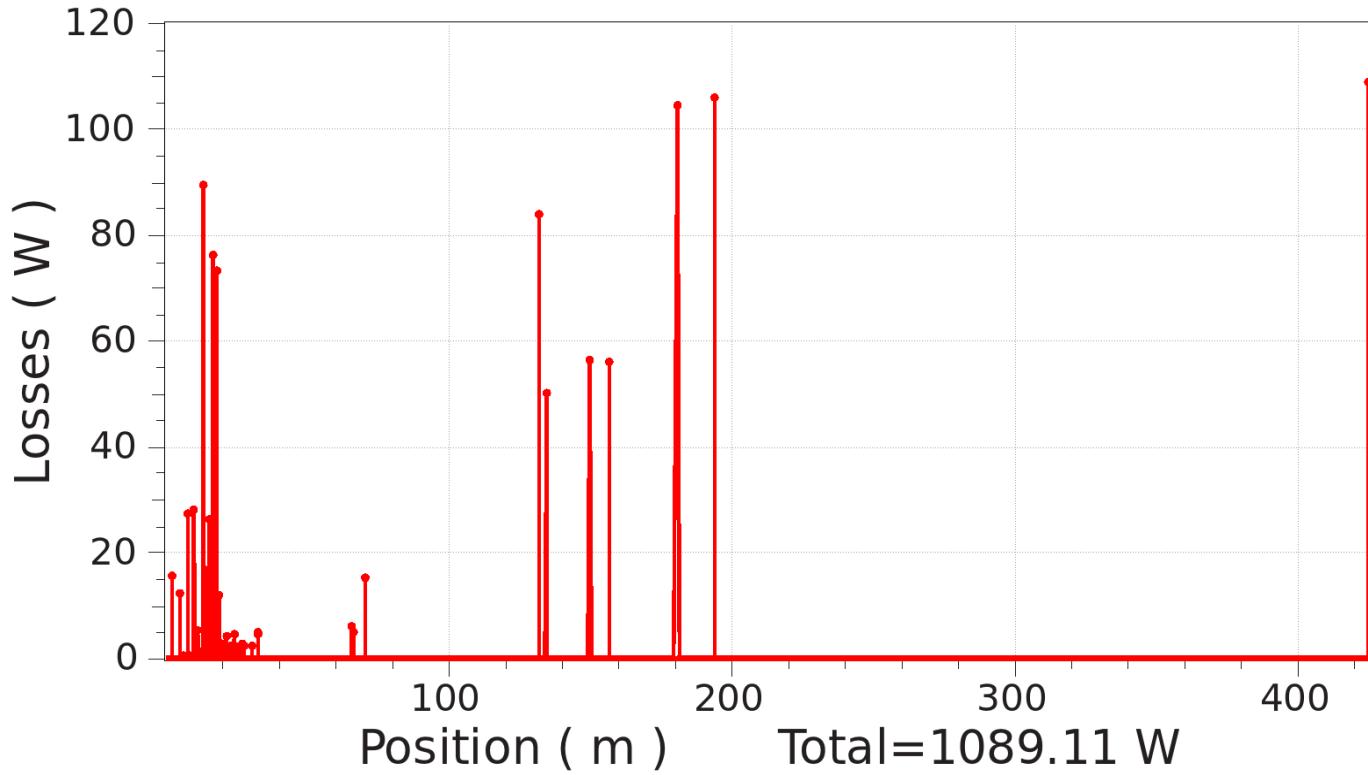

TraceWin - CEA/DSM/Irfu/SACM

TraceWin - CEA/DSM/Irfu/SACM

Note: Tail particles represent 1% of the total population in this simulation.
An appropriate scale factor needs to be applied.
